

I Love My Love

All my friends fell out with me
Be - cause I kept ___ my love's com - pa - - ny,
But let them say or do what they will,
I love my ___ love with a free good will.

All my friends fell out with me
Because I kept my love's company,
But let them say or do what they will,
I love my love with a free good will.

Over the mountains I must go
Because my fortune is so low;
With an aching heart and a troubled mind
For leaving my true love behind.

The Powers above look down and see
The parting of true love and me,
'Tis as hard to part the moon and sky
As it is to part true love and I.

When I have gold she has her part;
And when I have none she has my heart;
And she gained it, too, with a free good will.
And upon my honor I love her still.

The winter's past and the summer's come,
The trees are budding one by one,
And when my true love chooses to stay,
I'll stay with her till the break of day.
